## Air damper actuators

**GDB...2**  
**GLB...2**

Electronic motor-driven linear actuators for three-position and modulating control

- AC 24 V / AC 230 V
- Nominal force 125 N (GDB) / 250 N (GLB)
- Travel 60 mm, mechanical adjustable
- Connection cable PVC, 0.9 m

Type-specific variations:

- Adjustable offset and span ( Positioning signal )
- Position indicator
- Self-adaptation linear span
- 2 adjustable auxiliary switches

*Remarks*

This data sheet provides a brief overview of these actuators. Please refer to the Technical Basics in document Z4664en for a detailed description as well as information on safety, engineering notes, mounting and commissioning.

## Use

- For damper areas up to 0.8 m<sup>2</sup> (GDB) / 1.5 m<sup>2</sup> (GLB), friction-dependent.
- Suitable for modulating controllers (DC 0...10 V) or three-position controllers (e.g. rotary and linear dampers at air outlets).

## Type summary

GDB.../GLB...	131.2E	136.2E	331.2E	336.2E	161.2E	163.2E

Auxiliary switches (two)		X		X		
Linear direction switch					X	X

## Functions

Type	GDB.3..2 / GLB.3..2	GDB16..2 / GLB16..2
Control type	Three-position control	Modulating control
Positioning signal with adjustable characteristic function		DC 0...35 V at Offset $U_o = 0...5 V$ Span $\Delta U = 2...30 V$
Linear travel direction	The direction of linear travel depends on...	
	...the type of control. With no power applied, the actuator remains in the respective position.	...the DIL switch setting outward / inward.
Position indication		Position indicator: Output voltage $U = DC 0...10 V$ is generated proportional to the linear travel. $U$ depends of DIL switch setting.
Auxiliary switch	The switching points for auxiliary switches A and B can be set independent of each other in increments of 3.4 between 3.4 and 57.1 mm.	
Self-adaptation of linear span		When self-adaptation is active, the actuator automatically determines the mechanical end positions of the linear span and maps the characteristic function ( $U_o, \Delta U$ ) to the calculated linear span.
Linear limitation	Stepless limitation between 0 and 60 mm for the linear travel is possible by means of a clamp from the linear/rotary set ASK55.2	

## Ordering

<b>Note</b>	Auxiliary switches <b>cannot be added in the field.</b>
Accessories, spare parts	Accessories to functionally extend the actuators are available, e.g., various linear/rotary sets; see data sheet <b>N4698</b> .

## Disposal

The device is considered an electronics device for disposal in terms of European Directive 2012/19/EU and may not be disposed of as domestic garbage.

- Dispose of the device through channels provided for this purpose.
- Comply with all local and currently applicable laws and regulations.
