

One design
lots of quality features.

- Hard soldered solderless and pin terminals with grooved profile in the crimping area.
- Special connectors to DIN 46341 Form A and B.

Solderless terminals DIN Cu, 0.5 - 240 mm²

- For conductors, e.g. VDE 0295 Classes 2, 5 and 6
- Manufactured according to DIN 46234
- Hard soldered crimping area
- With grooved profile for improved contact characteristics
- Material/surface: Cu-ETP / tin-plated

Solderless terminals DIN Cu, 0.5 - 150 mm²

- For connecting different conductor crosssections
- Manufactured according to DIN 46341 Part 1, Form A
- Material/surface: Cu to EN 13600 / tin-plated
