Other models and accessories → www.sick.com/Presence_Inspection

Detailed technical data

Product features

Description	The Presence Inspection License gives the possibility to productively use a subset of the tools in a SICK Nova SensorApp. The Presence Inspection toolset is used to ensure that desired qualities or properties are present and undesired elements are not present.
SensorApps	Nova Visionary-S, Nova Visionary-T Mini
License type	The Software is provided under a device license. One license is bound to a specific hardware ID at a time. It is possible to relocate the license to another device if required, after properly removing it from the initial device.
License period	The license is issued without a time limit.
Provision	The license is sold with a ticket that you receive in an e-mail. For use on a specific SICK device, you must activate the license at license.sick.com .

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
