I am **Smart**

I am **Danfoss Link™**

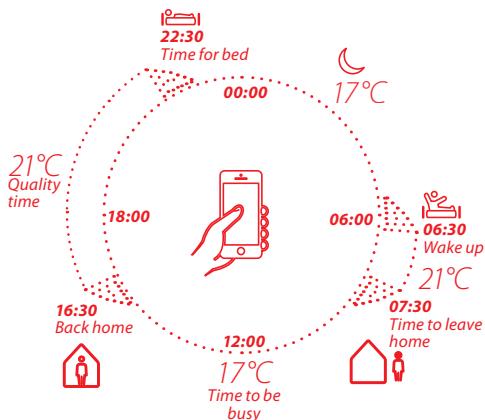

The simplest way to achieve smart heating

Up to

30%

energy savings

Easy Installation and total control

Danfoss Link is easy to install and compatible with 90% of all radiator valves. Once installed they can be controlled with the user-friendly Danfoss Link™ App.

The comfortable choice

Simply programmed to fit your daily schedule. Set individual temperatures for each room in your house, up to 30 radiators using the App.

Smart savings

The intelligent system adjusts your heating when appropriate and with wireless internet connection you get full remote control of your home heating, optimising usage and enabling savings of up to 30% on heating bills.

Safe and secure solution

By continuously monitoring and improving technical and organisational measures, we ensure the highest level of security when your smartphone communicates with any Danfoss Smart Heating solution.

Code No	Product Type
014G0288	Danfoss Link™ Central Controller
014G0289	Danfoss Link™ Central Controller (w/plug)
014G0279	Dynamic Boiler Relay
014G000200	Living Connect (Smart Radiator Thermostat)
014G015800	Danfoss Link™ (Room Thermostat)
014G026200	Danfoss Link™ Battery Pack (for easier commissioning)
