

### Two-colour LED, T5,5K socket - 24V L5,5K24RG

Description:	with built-in series resistor colour depending on the polarity storage temperature: -25°C ... +80°C ambient temperature: -20°C ... +60°C voltage tolerance + 10 % + 10 % colour: red green rated current [mA]: 14 13 brightness [mcd]: 2300 650 dominant wave length [nm]: 625 525
Category:	Accessories for contact blocks
Series:	Accessories
colour	red/green
Storage temperature:	-25°C ... 80°C
Operating temperature:	-20°C ... 60°C
