

Model Number

RLK29-55/25/116-Set

Retroreflective sensor with terminal compartment

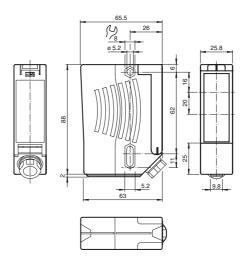

Features

- Robust, compact photoelectric sensor for single-beam gate protection
- Not sensitive to ambient light, even with energy saving lamps
- Tamper-proof, no operating controls
- Version for universal voltages
- Relay output
- Version with accessories in scope of delivery

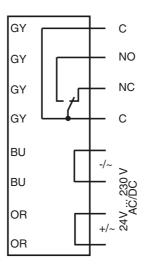

Product information

Series 29 is a range of low-cost and, most importantly, reliable photoelectric sensors for monitoring industrial doors, elevators, and automatic gates. Their high degree of protection makes them the ideal solution for tasks outdoors and at thresholds, and in harsh environments. These "universal-voltage sensors" can be operated with any supply voltage from 24 V to 240 V, and with direct current or alternating current.

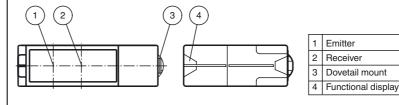

Dimensions

Electrical connection

Indicators/operating means

yellow

Technical data

General specifications

Effective detection range 0 ... 12 m 0.04 ... 12 m Reflector distance Threshold detection range 14 m reflector C110-2 Reference target

LFD Light source

Light type modulated visible red light, 640 nm Diameter of the light spot approx. 35 mm at a distance of 12 m

Angle of divergence ± 1 Ambient light limit 90000 Lux

Accessories provided reflector C110-2, Mounting bracket with mounting materials

Functional safety related parameters

1460 a $MTTF_d$ Mission Time (T_M) 20 a Diagnostic Coverage (DC) 0 %

Indicators/operating means

LED red Function display

illuminates: when beam is free

flashes: when level falls below function reserve

off: when beam is interrupted

Electrical specifications

24 ... 230 V AC/DC Operating voltage U_B 10 % Ripple No-load supply current ≤ 8.5 mA I_0 0.2 W at 24 V DC, 1.8 W at 230 V AC 3 VA Power consumption P_0

Output

Switching type Relay, 1 alternator Signal output Switching voltage 230 V AC Switching current max. 2 A Switching frequency 7 Hz Response time 50 ms

Ambient conditions

Ambient temperature -20 ... 60 °C (-4 ... 140 °F) Storage temperature -30 ... 70 °C (-22 ... 158 °F)

Mechanical specifications

Protection degree IP67

Connection terminal compartment

Material

Housing Plastic ABS, flame resistant

Optical face Plastic pane

Mass approx. 200 g

Safety fuse \leq 2 A (slow-blow) according to IEC 60127-2 Sheet 1 Note Recommendation: after a short circuit, check that the device is

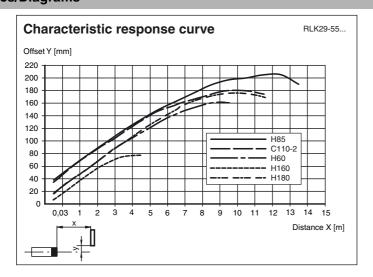

functioning correctly.

Approvals and certificates

CE conformity yes **UL** approval cULus

CCC approval Certified by China Compulsory Certification (CCC)

Curves/Diagrams

Typical applications

- Monitoring closing edges of automatic industrial doors and elevators
- Monitoring the swing range of automatic
- Detecting and tracking objects in material handling

Detection area

Accessories

OMH-RLK29

Mounting bracket

OMH-RLK29-HW

Mounting bracket for rear wall mounting

OMH-21

Mounting bracket
